# WARMTH - RIGHT THERE WHENEVER AND WHEREVER YOU NEED IT

With quality German design and efficient technology. The Solamagic radiant heater - high performance and top comfort.

## SOLASTAR EFFICIENCY AT ITS HIGHEST

Our heating element converts the energy used into a maximum of heat. We can reduce unnecessary - and often unwelcome - light radiation by 99 percent.

## STRONG SUSTAINABILITY!

We at Solamagic develop and construct our radiant heater in Germany.

High-quality materials as well as meticulous workmanship ensure a long performance lifetime. This combined with optimal energy efficiency enables us to achieve high levels of sustainability - both for you and our environment.

## INFRARED COMFORT AT THE FLIP OF A SWITCH

Drawing on the example of the sun: Infrared is the natural radiation of the sun. Infrared radiation triggers a pleasant feeling of warmth on our skin. Regardless of outdoor temperature. That's why even in winter we can sense the sun's soothing effects - in exactly the same way as with the Solamagic radiant heater.

## OVERVIEW

## SCOPE FOR IDEAS

Founded in 1991 as a lighting manufacturer in Zeulenroda/Thüringen, Germany, we have developed into a continually growing, medium-sized company.

Our products combine creative design with premium technology. This allows us to create a convincing illumination and heated technology portfolio that offers versatile design, quality manufacturing and scope.

Our brand, SOLAMAGIC, clearly reflects our mission: to establish a platform for our customers success based on creativity and leading technical know-how.

We stand for quality „Made in Germany“. And we are an innovative, flexible and reliable partner for our customers and suppliers.

## IDEAS FOR HEAT

SOLAMAGIC supplies heat and improves quality of life in many outdoor and indoor areas. Our aim is perfect harmony between heat and light.

Our objective is optimum use of highly efficient future-oriented, infrared technology in heating. To achieve it, we focus on our customers and their individual needs. Our infrared radiant heaters convince customers with well thought out functionality, discerning design, and a long service life.

They are designed to thrill and to make warmth an emotional experience.
